# FindPex

Apex Locator Using ASW Technology

## Main Technical Specifications:

Dimensions	156mm × 106mm × 114mm (package)
Weight	247g
Screen	3.5" color TFT
Battery	Lithium-ion battery, 3.7V/800mAh
Adapter	Input: AC 100-240V, 50Hz/60Hz, 0.2A Output: DC 5V/1A
Frequency	50Hz/60Hz, ±10%
Power rating	0.2A MAX
Degree of protection	IPX 0
Electrical safety class	Class II

## More Accurate & Anti-Interference

- Exclusive **Adaptive Sine Wave (ASW)** technology & next-gen multi-frequency technology enhance the measurement accuracy.
- High-speed AI chip allows real-time response
- Adaptive to various root canal conditions

## 3 Adjustable Measurement Sensitivity Levels

Tailored to meet the demands of different users

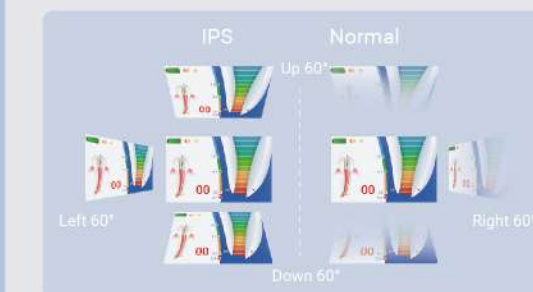

## Personalized Customization

- Personalized background & Sound recognition
- Light and Dark Theme Interface
- Advanced settings include time for auto-shut down & auto-return to the home page, language and volume
- Adjustable screen brightness fits different visual needs & saves energy

## Ultimate Experience of Visual & Tactile Sensations

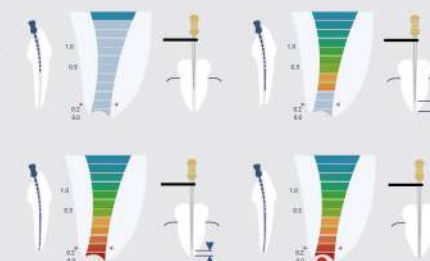

- Screen visible from any angle: 3.5-inch TFT color screen and IPS technology

- Upgraded touch buttons

## Intuitive Operation

- Synchronous endo file position demonstration
- Distinguishes Oral & Non-Oral Environments: 'Connected' indicator for non-oral settings, numerical display for oral environments

## Long-lasting Durability

- Durable Accessories: 316L stainless steel lip hook & biomimetic-silica-wrapped file clip

# E-PEX

Smart Apex Locator

## Integrate Endomotor with Apex Locator (Connect Function)

- Auto Start & Stop
- Apical Reverse
- Apical Slow Down

## Smart Accurate and Reliable Apex Locator

- Advanced Multi - frequency Technology
- High Precision in Wet & Dry Canals
- Large 3.5" LCD Display
- Automatic Calibration
- Compact Size & Stable Design

## Screen Display & Its Meaning

	Interface	Interface	Interface	Interface
Display				
Value	1 2	0 9	0 0	- 3
Meaning	The corresponding scale value is 2, indicating the distance from the apex is about 2mm	It indicate that the distance from the apex is about 1.5mm	It indicates that the endo file reaches the apex	It indicates that the root canal file has exceeded the apex
Alarm	Didi alarm sound for a long time interval	Didi alarm sound interval becomes shorter	Uninterrupted long beep	Very rapid Didi alarm sound

# AirPex

## Wireless Apex Locator

International Patent  
No.:PCT/CN2019/110429

### Feel the Charm of Wireless Charging

Lay it down , Charge it up  
Charging is as simple as placing  
the AirPex on the charging base

### True Wireless Apex Locator

Get rid of the wire to the fullest  
Use without magnet wire  
Accuracy through wirelessness

360° contra-angle rotation

Slim and compact design for maximum comfort and mobility

Miniature contra-angle for better visibility & easier posterior access

– Miniature contra-angle Super Mini head & thin neck

– Normal head & neck

Eighteeth innovative motor, cutting down the noise from inside, allowing you to experience the tranquility.

Less than 100 grams, reducing hand fatigue during treatment, providing the ultimate E-xtreme experience.

Reciprocation function

Built-in file system

## Specifications

Model	: E-xtreme	Power supply	: 100 V-240 V
Weight(grams)	: 99 g	Frequency	: 50 Hz / 60 Hz
Torque range	: 0.5 N.cm-4.0 N.cm	Output	: DC 5 V/ 1 A

# E-CONNECT

Cordless Endo Motor

- Torque Calibration
  - Powerful 1500 mAh Lithium Battery
  - Digital OLED Display
  - Integration Option
  - Low Noise Motor
  - Screen Cast / Mirroring
  - Ambidextrous \* Display
  - \*User can rotate the Endomotor Screen towards left or right  
\*In connect function Endomotor mirrors Apex Locator's screen
- ### Integrate Endomotor with Apex Locator (Connect Function)
- Auto Start & Stop
  - Apical Reverse
  - Apical Slow Down

- ### Five Reciprocation Modes (M0)
- Reverse Reciprocation-One Mode**  
Counter clockwise & clockwise movement  
Fwd 30° - Rev 150°  
For reciprocating files
  - Forward Reciprocation-Four Modes**  
Clockwise & counter clockwise movement  
Fwd 150° - Rev 30°    Fwd 180° - Rev 30°  
Fwd 210° - Rev 30°    Fwd 250° - Rev 30°  
For all continuous rotation files

- ### Nine Editable Memory Programs (M1 to M9)
- RPM Maximum Speed 1000 rpm
  - Forward Direction of Rotation
  - 360° Clockwise Rotational Movement
  - Reverse Direction of Rotation
  - Editable Speed / Rpm Setting
  - Torque Auto Reverse
  - Editable Torque setting

- ### One Piece Contra Angle Head
- 360° Adjustable Handpiece
  - Detachable Head
  - Miniature Head
  - Autoclavable

# E-connect S

Endomotor With Built-in Apex Locator

**Torque Calibration**  
For precise torque output

**OLED Screen**  
Digital OLED Display

**Ambidextrous Display**  
Screen can be rotated as per  
Left or right hand use

**Powerful Battery**  
Heavy duty 1500mAh  
Lithium battery

M0 - Stand Alone Apex Locator Mode

Apex Locator Bar

Zoom-in & Flash Bar  
(when file goes beyond 0.5mm)

## APEX LOCATOR

- **Apical control with rotary instruments**  
Position of file is displayed on screen and the motor rotates in reverse direction when file reaches pre-set apical working length, to prevent over instrumentation
- **Manual canal measurement**  
Manual file clip can be used to measure canals precisely with hand files
- **Multi frequency technology with high accuracy & precision**
- **Apex locator flash bar with zoom-in function**

## Working Modes:

**FWD** - Clockwise Continuous Rotation

**REV** - Anti-clockwise Continuous Rotation

**REC** - Reciprocation Movement

- First-in-class cordless open motor with adjustable angles of rotation ranging from 30° to 370° for reciprocation as per user's need

- First-in-class feature of speed adjustment in reciprocation mode

**ATC** - Adaptive Torque Control

ATC manages the file stress in a smart way. When torque limit is reached, instead of going into reverse mode, motor reciprocates till the stress is reduced. Once back to below pre-set torque level, file will again rotate in continuous rotation

## Integrated mode features:

- **Auto Start & Stop** - Motor starts working when the file enters inside root canal, and stops when withdrawn
- **Apical Reverse** - When the file reaches pre-set apical reverse point, user can define whether the file starts moving in reverse direction
- **Apical Slow Down** - To preserve the cemento-dentinal junction and avoid file separation, speed of motor slows down when file is in apical region

## Specifications:

Rotational Speed Range : 120-1000 rpm  
 Torque Range : 0.5-4.0 N.cm  
 Memory Programs : 11 (M0 to M10)  
 Battery Capacity : 1500 mAh

# E-connect S+

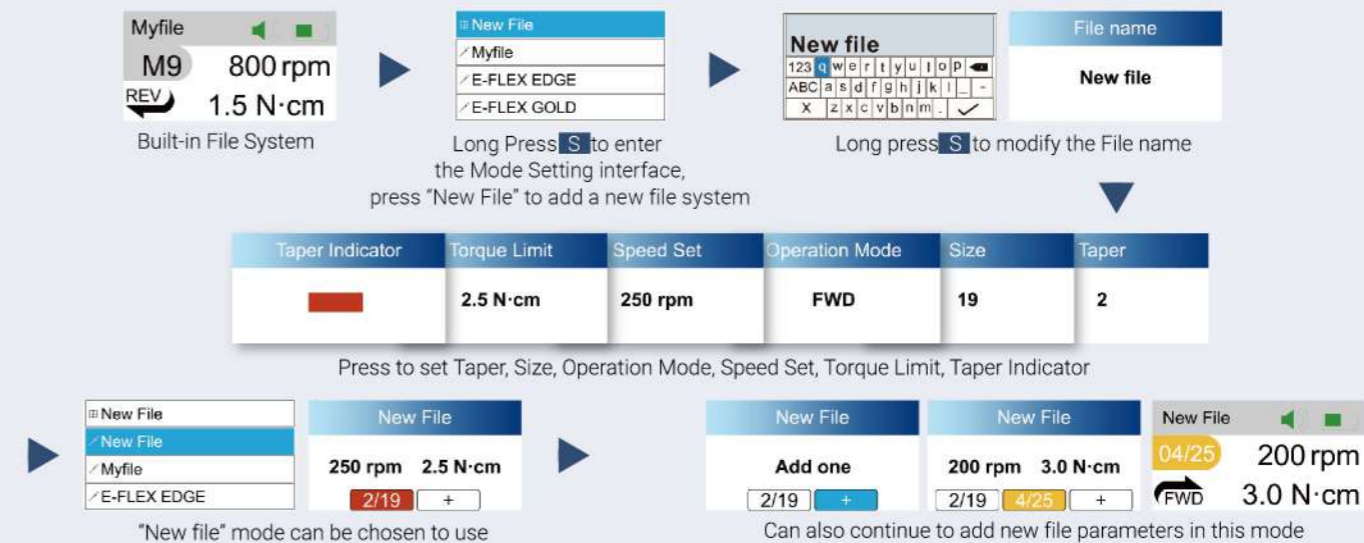

Endomotor With Built-in Apex Locator

- 
**360° Rotatable Contra Angle**  
 Upgraded contra angle  
 One-piece body design
- 
**TFT Colorful Display**  
 With excellent color saturation, tint  
 reducing power and higher contrast
- 
**Torque Calibration**  
 For precise torque output
- 
**Seamless Shell**  
 Ergonomic design
- 
**Advanced Brushless Motor  
Less Reciprocal Vibration**  
 With reliable quality, bring you precise  
 operation and higher efficiency
- 
**Visualized Apical Display**  
 A simulated image of the apex will appear on the  
 screen when using the apex locator function, which  
 vividly shows the apex position and is convenient for  
 dentists' judgment
- 
**Ambidextrous Display**  
 Screen can be rotated, convenient for lefties
- 
**Adjustable Backlight Brightness**  
 The brightness of backlight is adjustable  
 which can save power and meet the  
 photosensitive needs of different dentists
- 
**Built-in Apex Locator -  
Sensitivity Adjustable**  
 The sensitivity of apex locator is adjustable

## Customizable Built-in Endo File System

User could input endo file information

## Working Modes:

- **Fwd** - Forward Rotation
- **REC** - Reciprocation Mode
  - Reciprocating angle range 30°-370°
  - The reciprocating angle can be adjusted every 5 degrees
- **Rev** - Reverse Rotation
- **ATC** - Adaptive Torque Control Mode
  - After reaching the preset torque, motor will reciprocate according to the set angle to improve the efficiency of root canal enlargement

## Specifications:

- Speed Range**  
50 rpm -1500 rpm
- Torque Range**  
0.5-5.0 N·cm
- Reciprocating Angle**  
Every 5 degrees
- Battery Capacity**  
1900 mAh

# E-value

## Cordless Endo Motor

### Specifications:

- Speed Range : 120-1000 rpm
- Torque Range : R.L-4.0 N.cm
- Memory Programs : 10 (M1 to M10)
- Battery Capacity : 1900 mAh

**OLED Color Screen**  
More comfortable visual experience

**Built-in File System**  
Switch file systems quickly

**360° Rotatable**  
360° Rotatable Contra Angle

**Brushless Motor**  
Reliable, Durable, Efficient

**Long Battery Life**  
Heavy capacity  
1900mAh lithium battery

**Mini Contra Angle**

Note: the doctor could adjust the speed, torque limit and reciprocating angle according to the needs of the case.

### Working Modes:

- **Fwd** - Forward Rotation
- **Rev** - Reverse Rotation
- **REC** - Reciprocation Mode  
Doctor could set the reciprocating angle and speed level according to actual needs  
- Speed Level range from Level 1 to Level 5  
- Angles range from 30° to 370°
- **ATC** - Adaptive Torque Control Mode  
After reaching the preset torque limit, motor will reciprocate according to the set angle to improve the efficiency of root canal enlargement

# Ultra X

## Cordless Ultrasonic Activator

### Available Tips

Size	Length(mm)
#20 2%	18 & 21
#25 2%	18 & 21

- Autoclavable Tips
- Smooth Surface Finish
- Flexible Tips  
\*Only X Blue & Silver are Flexible Tips
- Multiple Tip Options

### In Action

#### Cavitation Effect

It is the process of formation of millions of gas bubbles in the irrigation solution. These gas bubbles grow in size, oscillate in different directions and explode into the liquid, producing powerful cleaning action

#### Acoustic Streaming

It is a unidirectional flow of liquid produced by ultrasonic waves. Movement of tip produces special effect called acoustic turbulence which accelerates the movement in liquid inside the root canal

### Indication

#### Smear Layer Removal

Effective in removal of smear layer and unplugging of dentinal tubules

#### Dentin Chips Removal

Ultrasonic agitation forms suspension of residual dentinal chips and tissue remnants with irrigant and facilitates their easy removal

### Indication

#### Biofilm Disruption

Ultrasonic cavitation disrupts the biofilm and helps to reduce bacteria load in the canal

#### Cleaning of Complex Anatomy

Ultrasonic activation helps irrigants to flush into undetected or un-instrumented canal anatomy like isthmus, fins, lateral canals, apical ramification etc. Also helps to remove vapour lock

### Protocol

- Prepare the root canal up to required size with the help of shaping and finishing instruments
- Choose the desired disinfectant and flushing agents for cleaning, debridement and disinfection of canals
- Fill the chosen irrigation solution into the canal, never run Ultra X without irrigating solution
- Select the Ultra X tip of desired size and length which passively fits into canal, always keep 2 - 3mm short of apex
- Activate solution using short vertical up & down strokes for 30 seconds. Be careful to not breach apical 2mm
- Use the device gently and never apply pressure or wedge the tip inside the canal. If any points of resistance, then retrieve the ultrasonic tip
- Replenish the irrigating solution, use suction to remove the loose debris. Repeat the cycle 4 to 5 times
- Completely dry the canal and fill it with choice of obturation material
- It is always recommended to isolate the tooth using rubber dam and use personal protective barriers like head gear, mask, eyeglasses etc

#### Key Features

- Ultrasonic Activation Device
- 45 kHz High Frequency
- Application Based Multiple Tips
- 1500 mAh Powerful Battery

#### Key Features

- Two Power Modes with LED Indicator
- Contra-angle Design
- Light Weight & Ergonomic
- Cordless Irrigation Device

#### Battery

- 1500 mAh Lithium Battery
- Battery Level Indicator
- 4.5 Hrs of Continuous Operation
- Option of Direct Plug & Play

# UltraMint & UltraMint Pro

All-round Ultrasonic Scaler

Scaling | Periodontic | Endodontic

## Soft Perio Power for Ultimate Comfort

Autoclavable plastic box - tips\*6, universal wrench\*1, EMS type handpiece\*1

Autoclavable plastic box - tips\*6, universal wrench\*1, Satelec type handpiece\*1

\*Applicable for all tips from Eighteenth

Smart touch system-ultrasensitive & waterproof

Intelligent self-cleaning-makes disinfection easy and avoids cross-infection

Two ways of water supply- Changing supply methods is easier than ever before

900ml stand-alone bottle with clear 20ml scale mark makes it convenient for formulating liquid.

Detachable handpiece with LED- autoclavable, ergonomic, brighter visibility

Detachable and autoclavable handpiece holder, resists cross-infection

Water control directly from handpiece

Ergonomic foot pedal

• EMS type

• Satelec type

## One scaler, 2 solutions

Wide range of frequency: 25kHz-42kHz

– We are proud to give you two solutions to perform at your best- both handpieces (EMS type and Satelec type) provided by Eighteeth are compatible with UltraMint & UltraMint Pro.\* Scaling can be as convenient as you can imagine.

\*Satelec and EMS are trademarks of Acteon® and EMS®, respectively.

## AI Engine – Scaling has never been so intelligent!

Customized treatment based on tooth surface conditions

Smart touch control system- ultrasensitive & waterproof

Elliptical stroke patterns with polishing effect

Intelligent degenerative feedback

Digital controlled automatic frequency tracking  
Ensures machine works on optimum frequency

Sine wave drive  
Avoids simulation caused by instantaneous current output; ensures comfortable treatment

Tips: G1 G2 G4 P1 P3 E4 universal wrench, EMS type handpiece

Tips: E3-SD E5-S E7-S P4-S G1-S G2-S universal wrench, Satelec type handpiece

## Endodontic

# Fast-Pack pro & Fast-Fill

**3D** Obturation  
Devices

# Fast-Pack pro

Obturation Pack Handpiece

## Temperature Range

- Wide temperature range of 90° to 300°
- Five memory programs to customize temperature and cut-off time as per obturation material used or any other intended use of the device

## Internally Heated Tip

- Only the working end (4 - 6 mm) of the tip is heated - avoids need for insulating sleeves
- The non-working end is insulated and stays cool avoiding soft tissue burn

## Class-leading Controlled Heating

- Fast heating - Quick heating prevents PDL damage
- Swift cooling - Swift cooling ensure GP does not follow along the heating tip

## Experience Ergonomics

- 360° start / stop ring button allows holding the device in any angle comfortable for you
- Left - right handed operation
- Comfortable grip, light in weight

## Powerful Battery

- Highly efficient 2600mAh Lithium battery
- Direct Plug & Play - In case of low battery, use the device directly with adaptor

## Specifications

Heating Time	0.2 seconds for 200 °C Less than 1 second for 300 °C
Cooling Time	2 seconds for cooling
Charging Time	2 hours to complete charge
Operating Time	4 hours of continuous operation at 250 °C

Small (Black)

Medium (Yellow)  
50/0.05 - 1 Qty

Large (Blue)  
60/0.06 - 1 Qty

# Fast-Fill

Obturation Fill Handpiece

### Fast-Fill Tips

- Autoclavable silver tips for multiple usages
- Silver tips maintain the thermoplastic temperature of GP and offers smooth flow inside canal
- 360 ° rotating tip for easy filling at all angles
- Extra long needle offers convenience and visibility
- Easy to maintain and replace

### Motorized GP Flow

- Provides consistent flow of GP at desirable rate
- Precludes voids and makes obturation homogeneous
- Eliminates hand fatigue that resulted from earlier gun type devices

### Comprehensive Display

- Three customizable memory programs - T1 to T3
- Temperature range 100 °C - 200 °C
- GP flow rate - Low, Medium, High
- Reserve GP level indicator

### Intuitive Design

- Sleek and ergonomic hand-piece
- Simple push button to dispense GP
- LED indicator reflects when the device is ready for use

### Powerful Battery

- Highly efficient 2600mAh Lithium battery
- Direct Plug & Play - In case of low battery, use the device directly with adaptor

### Specifications

Heating Time	20 seconds to 200 °C
Charging Time	4 hours to complete charge
Hexagonal Wrench	Use the wrench to bend the tip, rotate the tip and clean the device

23 Gauge Large

25 Gauge Small

Fast-Pack pro & Fast-Fill

## Protocol for Use

### Master Cone Verification & Resizing

Select a master cone which corresponds to the master apical preparation. Check for tug-back and confirm the same with radiograph. Resize the GP by cutting it to 0.5 to 1mm short of the working length. This will prevent peri-apical extrusion of the GP

### Selection of Fast-Pack & Plugger Tip

Select the Fast-Pack tip which reaches 4-5 mm short of the working length and give a snug fit at the tip. Mark this length using the silicon stopper. Similarly, select the hand plugger which reaches 4-5mm short of the working length

### Gutta Percha & Sealer

Coat the master cone apically with the sealer and insert it into the canal. Brush the canal wall using strokes of GP and sealer

### Down Pack with Fast-Pack

Remove the GP from the orifice/coronal part with the help of heated Fast-Pack tip. Plug the GP cone with pre-fit hand plugger at the orifice. Now take the heated Fast-Pack tip 4-5mm short of the working length. The bite of GP will come out of the canal along with the tip. Heated Fast-Pack tip will transfer heat to the GP and convert it into thermoplastic state. Condense the GP with the help of hand plugger to ensure the complete sealing of accessory canals and apex

### Fill with Fast-Fill

Filling the canal using the Fast-Fill device in increments of 4mm till the canal is filled completely while condensing the warm GP with the appropriate plugger after each increment

Fast-Pack pro & Fast-Fill

# Gutta Percha Points

Ideal for obturating root canals which have been prepared with GT files, Profile, Quantecs, etc. Greater Taper 0.04 and 0.06 are available in assorted or individual sizes. At the top of points (d1), the diameter corresponds to the ISO size, but then the conicity is greater than ISO points.

Multiple Curing Options

Ramp mode

Pulse mode

Caries detection

# CuringPen-E

3 LEDs Curing Light

## Technical Specifications:

Dimension	: 19 x 16.5 x 7.5 cm
Weight	: 120 g
Lens Size	: 8 mm
Power Supply	: >1200 times, 3000 mw/cm <sup>2</sup> , 3 Sec
Maximum Light Intensity	: 3000 mw/cm <sup>2</sup>
Spectral Range	: 380-515 nm

### 360° Rotatable Head

Easy to illuminate various treatment areas

### Small Light Head

Easy to access to posterior molars which offers better patient experience

### Special Lens Design

Unique lens design forms a concentrated beam for uniform curing

### Ultra Power

- Light intensity now up to 3000mw/cm<sup>2</sup>
- High light intensity results in deeper cure depths which could curing resins more efficiently and with short time

### Broad Spectral Range 380 nm-515 nm

- Why broad spectral range?
- Most of resins use camphorquinone (CQ) materials, but some manufacturers choose alternative initiators such as TPO to reduce the yellow impact caused by CQ. TPO can only be activated by the light wave below 410nm. CuringPen-E has a broad spectrum which could effectively cure different resins.

## Working Modes

### • P1

#### Normal Mode

Light Intensity : 1200mw/cm<sup>2</sup>  
 Time Setting : 5s, 10s, 15s, 20s, 25s, 30s, 35s, 40s

# HyperLight

Portable X-ray Unit

## Engineered for accurate images

### - Clinical Imagery

### - Sharp, high resolution images with a 0.4 focal spot

Source focal spot    Source focal spot

Effect of focal spot size

## Designed with safety in mind

**Built-in leaded double shield to protect the operator from leakage radiation**

**Locking system to prevent unintentional exposure**

## Specifications

Model	HyperLight	Weight	1.8 kg
Focal Spot	0.4	Battery	2500 mAh x 4
Tube Voltage	65 kV	Exposure Time Range	0.02-2 Sec
Tube Current	2.5 mA	Line voltage	100V-240V, 50Hz/60Hz

## Simplify your digital workflow

- Compact size and lightweight can make you operate it by one hand only
- Intuitive user interface
- Smart angulation system

## Maximize your diagnostic potential

Perfect combination

# HyperLight-G

Portable X-ray Unit

### Receptor

Use with film, digital sensor, phosphor plate

### Locking System

### Preset Parameter

Divided into adults and children, and can be set and controlled for different teeth

### Large Battery Capacity

More than 300 exposures in one full charge

Smart angulation system, faster your workflow

### Safe

- Internal x-ray shielding
- Locking system to avoid unintentional exposure
- Backscatter shield for operator and patient protection(\*optional)

### Portable

- Cordless, handheld and extremely mobile, move freely between rooms, locations and cities

### Economical

- Use with film, digital sensor or phosphor plate
- Prolonged working life, at least 80,000 exposures

### Specifications

Model	HyperLight-G
Tube Voltage	65 kV
Tube Current	2 mA
Exposure Time Range	0.02-2 Sec
Weight	1.9 kg
Battery	2000mAh X4
Line Voltage	100V-240V, 50Hz/60Hz

# NanoPix

Intraoral X-Ray Sensor

1/10 Cost per patient compared to film  
3s To complete entire imaging process  
50000+ Exposures with no quality loss

## Leading technologies : The 1st time in dentistry

### AED Technology (Automatic Exposure Detection)

- from chest radiography
- Compatible with almost all DC and AC X-Ray generators
- Digital images comes automatically when your X-Ray is switched on

### APS CMOS Technology

- from aerospace industry
- High signal-to-noise ratio with maximum details
- Long life and low power consumption

### Direct Deposition CSI Technology

- from chest radiography
- Low dose radiation for safety
- Less exposure time but higher resolution

## All-in-one

The most economical X-Ray sensor in the world

## Unique design

### Ergonomic design

Cupped cable connection ensures comfortable finger positioning

### Robust cable connection

70000+ Bendings RA test passed

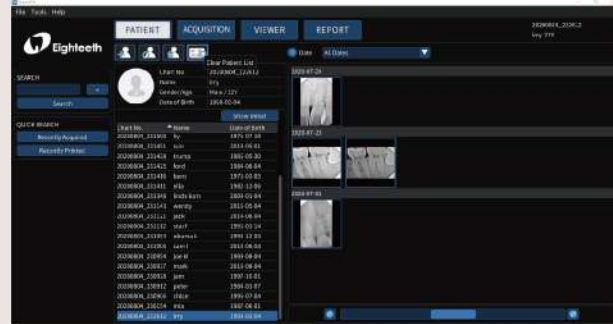

### Ultra-thin body design

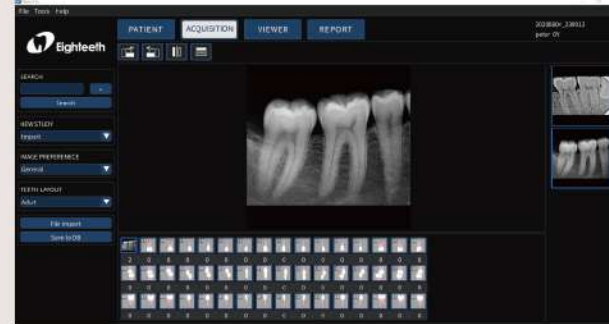

4.4mm - the thinnest X-Ray sensor

## Easy-of-Use software with only 4 steps

### ● Step 1. Choose 'Patient'

### ● Step 2. Image 'Acquisition'

### ● Step 3. View Image

### ● Step 4. Generate 'Report'

## The Complete Image Solution: excellent combination of DR Pad & its base

-  pre-installed software
-  multiple USB ports for diverse needs
-  build an instant connect with users

## Specifications(available in 2 sizes)

	NanoPix 1	NanoPix 2
Detector Technology	APS CMOS	APS CMOS
Scintillator	CsI	CsI
Pixel Matrix	1000*1500	1300*1800

Mechanical Size(mm)	25.4*36.8*4.4	30.4*41.9*4.4
AD Conversion(bit)	16	16
Data Interface	USB 2.0	USB 2.0
Protection	IP68	IP68

# NanoPix-E 1.3

## Intraoral X-Ray Sensor

### Specifications

Model Name	: NanoPix-E 1.3	Theoretical Resolution	: 25lp/mm
Detector Technology	: APS CMOS	True Resolution	: 20lp/mm
Scintillator	: Csl	Active Area (mm)	: 22.5*30
Pixel Matrix	: 1200*1600	Mechanical Size (mm)	: 27.5*38*4.8
		Data Interface	: USB 2.0

### Perfect Size – 1 Exposure is enough!

According to the statistics, the average length of molars is **22 mm**. NanoPix-E 1.3 has an imaging area of **22.5x30 mm**, which can cover the whole molar more effectively and provide more information in one shot. At the same time, the thickness is only 4.8mm, providing a comfortable experience for patients while positioning them faster.

### Excellent Image Quality

- NanoPix-E 1.3 applies CSI (Cesium Iodide) technology, which allows doctors to acquire high resolution images at lower exposure doses.
- NanoPix-E 1.3 is also equipped with a high-sensitivity sensor. It makes NanoPix-E 1.3 can work with variety exposure settings or X-ray sources.

### Unique design

-  Robust cable connection
-  Thin body design
-  Ergonomic design

# FinScan F350

Oral and Maxillofacial  
CBCT Equipment

FinScan F350

### Large view in one-step: 16x10cm high level configuration

- Widely applied in routine oral diagnosis, implant surgery, ENT, plastic surgery, etc
- 4\*4 & 8\*8 FOV are provided to meet the clinical needs of various fields of view in different complex surgeries

### Small size but comprehensive functions

- Compact body with fluid aesthetic design
- Flexible layout with 700mm lifting range and no need fixation

CBCT

Ceph

Pano

### Ultra high definition images with faster scanning

- Large-area amorphous silicon detector. Achieve stable shooting and high-resolution images quality
- Original imported Tube from Canon. Provide high quality images with 0.5mm focal spot
- Intelligent cooling technology. Ensure continuous shooting and stable output
- AI intelligent noise reduction. Reduce noise and restore images clarity

### Images are available in just 9 seconds!

- High-resolution reconstruction algorithm based on further learning. Enables high-quality images at a low-dose and fast scanning of only 9 seconds

### Scanning Time

- CBCT: 9 S or 18 S
- Panoramic: 14 S
- Cephalometrics: 8 S or 6 S

### Professional, intelligent and efficient software

- Improve diagnostic efficiency. The software interface includes: MultiPlanar Reformation(MPR), Curved Planar Reformation(CPR), 3D Panorama, Mandibular Canal Tracing, 3D cropping, customized 3D rendering and conventional measurement
- Convenient doctor-patient communication. Panoramic images can be marked on demand. And the equipment can be quickly reset
- Intelligent data management. Real-time access to patient imaging data under LAN, which supports data backup and recovery, allowing doctors to read images anytime and anywhere for smooth diagnosis and treatment
- Efficient digital diagnosis and treatment. Workstation type software architecture, meet your needs from A to Z

FinScan F350

### Professional team and quick response

Various customer service platforms are available 24 hours a day

### Remote interconnection and real-time service guarantee

Monitor the operating status of the equipment in real time, manage it with algorithms based on customer usage frequency, predict failures in advance and alarm on the equipment side

### Professional technical training

Professional after-sales team provides comprehensive technical support and services

### All-around leading core structure

- L-shaped base provides stable support without the need for fixation on walls and floors, free to move and space-saving
- Considerate design of the storage box under the equipment to storage belongings
- Real-time voice prompts the patient's posture and frees the medical staff

### Technical specifications

Xray Beam	Cone beam (pulsed mode)	Patient Location	Stand
Tube Voltage	60kV ~ 100kV	Patient Positioning	Height: Electric lifting column Head: Manual adjustment
Focal Spot	0.5mm		
Voxel Size (mm)	0.10, 0.15, 0.20, 0.25, 0.30	Control Device	Laser light: touch panel Exposure & image acquisition: workstation
Detector Type	CBCT+Pano

Scan Time	CBCT	9s or 18s	Installation Method
	Pano	14s	Workstation
	Ceph	8s or 6s	
Reconstruction Time	≤ 60s	Maximum FOV (CT)	16cm × 10cm

### Product Size

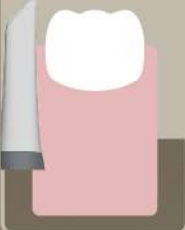

Product Vertical Height Range (mm):  
1581-2281 (the max lifting height is 700mm)

Column Longitudinal Movement Range (mm):  
≥600

Product Weight:  
260Kg (packaging not included)

# Helios 500

## Intraoral Scanner

### Why Helios 500?

- Fit for your budget**  
The price of HELIOS 500 is affordable by almost everyone, and at the same time, it provides high performance.
- Improve your digital workflow**  
One of the most accurate and fastest scanners on the market.
- Free your hands**  
Automatic and adaptive calibration, manual calibration is not necessary any more.
- Make your experience comfortable**  
Smaller and lighter while achieving a 16mm x 14mm high-definition field of view. More friendly to people with sensitive teeth. (\*The air duct inside the body has been upgraded.)

-  **Accuracy**  
As one of the most accurate scanners on the market, HELIOS 500 has reached the state-of-the-art accuracy level- the average deviation of a in-vivo full arch scan is around 20.0µm.
-  **Speed**  
Scan a full arch in less than 30 seconds with HELIOS 500.
-  **Weight**  
Only 185 grams, one of the most lightweight scanners on the market, well-balanced, ergonomically designed, and easy to carry.
-  **AI technology**  
AI technology filters the soft and moving tissues, offering users a smooth scanning experience and generating a natural-looking treatment outcomes

## Helios 500

# Helios 600

Intraoral Scanner

## Start your smooth digital journey with Helios 600!

### Why bother?

High accuracy with automatic and adaptive calibration, manual calibration is not necessary any more.

### Ready for your digital experience-

One of the most accurate and fastest scanners on the market.

### Ready for your hand-

Small enough to operate it easily, though it achieves a 16mm x 14mm high-definition field of view.

### Lighter

198 grams, one of the most lightweight scanners on the market, well-balanced, ergonomically designed, and easy to carry.

### Faster

With Helios 600 you can take a full arch scan in less than 30 seconds.

### Smarter

AI technology filters the soft and moving tissues, offering users a smooth scanning experience and generating a natural-looking treatment outcomes.

### More accurate

As one of the most accurate scanners on the market, Helios 600 has reached the state-of-the-art accuracy level- the average deviation of a in-vivo full arch scan is around 20µm.

## Helios 600

Not only a comprehensive intraoral scanner, but also an intraoral camera!

# AcuVision X

Surgical Microscope

- ① Suspension Arm Rotation Friction Knob
- ② 0-210° inclinable binocular tube
- ③ PD adjustment: 51~76mm
- ④ 12.5X/20 Widefield eyepieces, ±7D Diopter adjustment with screw in-out eyecup, suitable for eyeglass wearers
- ⑤ Lock for Microscope Pitching
- ⑥ Knob for Adjusting Microscope Pitching Balance
- ⑦ Magnification Changer Knob
- ⑧ Photo/Video Control Button
- ⑨ Integrated Knob for brightness adjustment, filter position switching, camera power supply output voltage control
- ⑩ Continuous Illumination Spot Size Adjustment Knob

## 24mm Stereo Base

- Perfectly fits the observation of human eyes, and obtains observation images with richer layers

## Manual 6-Step Apochromatic Magnification Changer, Mag. Ratio 1:9

- Magnification Ratio: 2.6X, 3.9X, 6.3X, 9.8X, 15.7X, 23.5X (12.5X eyepiece, WD=190mm)  
1.4X-23.5X (12.5X Eyepiece, Various focus objective (VaroF™) : WD=190mm-460mm)

## 0-210° Inclinable Binocular Tube

Provides more possible operating positions, ensures that doctors always maintain an upright sitting posture

## Large Focal Length Adjustment Range. Larger Field of View, See More Details

- Working Distance Range: 190-460mm
- Field of View Range: 9.6-193.8mm
  - 12.5X Eyepieces
  - Various Focus Objective (VaroF™)
  - WD=190mm-460mm

## Lighting System

### Multi-Mode Augmented Visualization LED Illumination

- 5500K daylight color temperature, CRI≥90, deliver bright, vivid colors for easy differentiation of anatomical details
- Long bulb lifetime of approx. 60,000 hours for minimal cost of ownership

### Illumination Spot Size is Steplessly Adjustable

- The diameter of the spot is 9.7mm-210mm, which can be manually adjusted continuously
- Clear edge of spot, can fully illuminate field of view at all magnifications and working distances

### Electric Multi-function Adjustment Knob

- The knob integrates continuous brightness adjustment, filter position switching, camera power supply output voltage control. All in one, convenient and easy to use

## Video System

### - Pendulum Function

30° Optical Extender integrated with 20% : 80% Beam Splitter and Rotate Ring, allows the user remain in an upright viewing position when the direction of the optic pod is changed within  $\pm 25^\circ$

### - Smart Phone Adaptor (optional)

### - DSLR or Sony Camera Adaptors(optional)

The adaptor is compatible with mainstream SLR cameras and Sony mirrorless cameras

### - DSLR or Sony Camera Power Supply

Port output voltage: 9V2A/9V3A/8.4V3A, suitable for all main cameras on the market

### - Ergo Handgrip Integrated with Photo and Video Control Button

Comfortable grip, 360° rotatable, and autoclavable

### - Display Mount

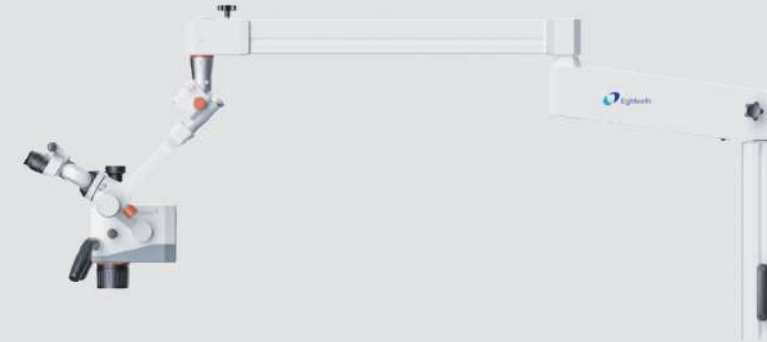

Preseted mount for display arm. The display arm can be installed on column as well on the Swivel arm. Two sockets for HDMI output supported at the same time

## Bracket System

### - Ultra-long Arm Span

Total arm span  $\geq 1600\text{mm}$ , more freedom of installation

### - Concise Design

Power cables, data cables, and video cables are all arranged in the cross arm, without too many exposed cables;

### - Float-Free™ Balance Arm

Float-Free™ scroll spring type damping strength adjustment, ultra-light, smooth and balanced, one-handed operation, stop at any position; Left and right  $\pm 60^\circ$  tilt, pitch  $-30^\circ \sim +60^\circ$ , vertical  $330^\circ$  rotatable.

### - LCD Screen

Integrated central LCD display can show the filter position, brightness and output power voltage for camera

### - Built-in LED Position Switch

Built-in position switch, save energy and prolong the service life of LED  
The light source turns off in the top position, and when down the light source it turns on

## Tech Data

Microscope System		
Magnification System	Manual 5-step Apochromatic magnification changer, Mag. ratio 1:9	
Stereo Base	24mm	
Magnification Ratio	2.6X, 3.9X, 6.3X, 9.8X, 15.7X, 23.5X (12.5X eyepiece, WD=190mm) 1.4X-23.5X (12.5X Eyepiece, Various focus objective (VaroF™): WD=190mm-460mm)	
PD Adjustment Range	51~76mm	
Eyepieces	12.5X/20 Widefield eyepieces, ±7D Diopter adjustment with screw in-out eyecup	
Binocular Tube	0-210° tiltable tube, f=182mm, with PD adjustment Knob	
Objective	Various Focus apochromatic Objective with variable WD from 190-460mm. Protective cover included	
Illumination System		
Lighting Source	Long-lasting LED and Direct illumination, 5500K, CRI≥90, integrated into the microscope carrier, with average minimum service life of 60,000h. Maximum illuminance ≥60000lx	
Brightness Adjustment	Continuous Brightness adjustment by Knob	
Integrated Illumination Adjustment	Illumination adjustment knob integrated with brightness, filters, camera power input voltages, in front of the microscope body	
Illumination Spot Adjustment	Integrated variable illumination spot size adjustment from 9.7mm~210mm with clear and sharp spot edge, all the field of view are completely illuminated	
Filters Adjustment	Integrated motorized filters adjustment knob with Orange, Green, No Glare, White, True Light filters modes, the Filters' positions displayed on the central LCD	
Control Handles	Bilateral Decurved Strong Ergo handles with integrated Camera and Video button	
Image & Video System		
Integrated Image & Video System	Integrated HDMI 1080P High-Resolution Video system, U Disk can be mounted to store the videos, the systems configuration can be adjusted by using mouse	
Optical Extender   integrated with Beam splitter and Rotate Ring	30° optical Extender with Rotate Ring and 80/20 beam splitter integrated, tilt range ±25°	
DSLR Adaptor	For APS-C cameras (sensor size: 22 x 16 mm), Nikon & Canon DSLR	Optional
SONY A Series Adaptor	For APS-C cameras (sensor size: 22 x 16 mm), SONY A Series	Optional
Smart Phone Adaptor	Compatible with all smartphones, Cardan for Image Rotation Suitable for All Phone Placement	Optional
Display Mount	Preseted mount for display arm. The display arm can be installed on column as well on the Swivel arm. Two sockets HDMI output supported at the same time	
Suspension System		
Stand Configuration	Movable Floor Stand, Star-Base 680mmX680mm, Separated Weights Convenient for installation. 4 Wheels with independent brakes. 1200mm Height Aluminum-alloy-Made robust Column	
	Floor mount	Optional
	Wall mount	Optional
	Ceiling mount	Optional
Swivel Arm	480mm Rotation Length, 360° Rotatable, Aluminum-alloy-Made with lock Knob	
Suspension Arm	900mm Rotation Length, ±170° Rotatable, Up & down adjustment range ±400mm, LED Reset functions limit switch for light on/off	
Float-Free Balance Arm	Float-Free Balance arm with Spiral spring integrated offers ultra-smooth, fluid, and perfect balance when repositioning of the microscope. Left-Right tilt angle ±60°, Front-Back rotation t angle -30°~+60°, 330° vertically Rotatable	
Total Arm Reach	Total Arm Reach ≥1600mm, Long reach arm for more free position	
Cable Layout	Power, data, video cables wiring inner the arms, make the outline clean and tidy. Power output for DSLR cameras preseted	
Central Display	Integrated central display can show the filter position, brightness and output power voltage for camera	

# Brilliance

## Dental Loupes

Frame Material: AlMg, TR90

Frame Color: ● ● ● ● ●

### Lens

- Schott Glass  
Ensure high resolution, clear and sharp field of view
- Refined lens coatings  
Multi-layer coating technology, Anti-fog, Anti-scratch, Anti-glare, to ensure more visible light through the glass

### Body

- Aerospace-grade aluminium magnesium alloy  
Our loupes are exceptionally high strength and light
- Intelligent damping torque effect  
Easy to adjust and with excellent stability
- Asynchronous PD adjustment  
Laser printed scale lines, accurate and intuitive

### Frame

- Super light frame  
Ergonomic design with optional materials and colors
- Protective shield  
Besides protective shields, prescription lenses can also be fitted by an optometrist

### Two Options

Both can be quickly and accurately reset after flipped-up without extra adjustment. Get into the next use immediately, and greatly improve the work efficiency.

#### Two hinges type

#### Three hinges type

### Your ideal first pair of Loupes!

Magnification	Working Distance	Field of View	Depth of Field	Net Weight
3.0x	350 mm	68 mm	≥90 mm	71g
	400 mm	76 mm	≥100 mm	71g
	450 mm	84 mm	≥115 mm	71g
	500 mm	92 mm	≥135 mm	71g

# Brilliance

## Business Dental Loupes

Frame Color: ● ● ● ● ●

### Specification:

Model	Type	Hinges	Magnification	Working Distance	Field of View	Depth of Field	Net Weight
ibG3040D/S	Flip Up	2 hinges type / 3 hinges type	3.0x	400 mm	76 mm	≥100 mm	71 g
ibG3045D/S	Flip Up	2 hinges type / 3 hinges type		450 mm	83.5 mm	≥115 mm	
ibG3050D/S	Flip Up	2 hinges type / 3 hinges type		500 mm	92 mm	≥135 mm	

### Upgrade the fixed way of protective shields, easier to replace prescription lenses quickly

**Switch freely between working vision and daily vision**  
The curve of protective shield upgrades from former 600C to flatter 400C now, adopting the fixed way of the fishing line. Dentists can replace it with prescription lens in the optical shop.

**More accurate working distance option**  
Prescription lens eliminate the shortening of actual working distance caused by myopia, and dentists can more accurately choose the suitable working distance that matches their height and arm length.

### Lens

- **Schott Glass**  
Ensure high resolution, clear, achromatic and sharp field of view
- **Refined lens coatings**  
Multi-layer coating technology, Anti-fog, Anti-scratch, Anti-glare, to ensure more visible light through the glass

### Body

- **Aerospace-grade aluminium magnesium alloy**  
Light and durable, magnifying lens weigh only 45g  
No pressure after long time wearing
- **Asynchronous PD adjustment**  
Laser printed scale lines with 0.5mm pitch, accurate and intuitive

### Frame

- **New ergonomic frame design**  
Better fit to face, wear comfortably and without stress
- **Upgrade in texture**  
Adopt sandblasting craft on the frame, silky smooth
- **Upgrade in mirror bracket**  
Fixed tail rod design, more solid and safer

### Considerate hinge design

Easy for multi-angle operation, effectively easing shoulder and neck fatigue

#### 2 hinges type

#### 3 hinges type

# Brilliance 48°

Dental Loupes

Frame Color: ● ●

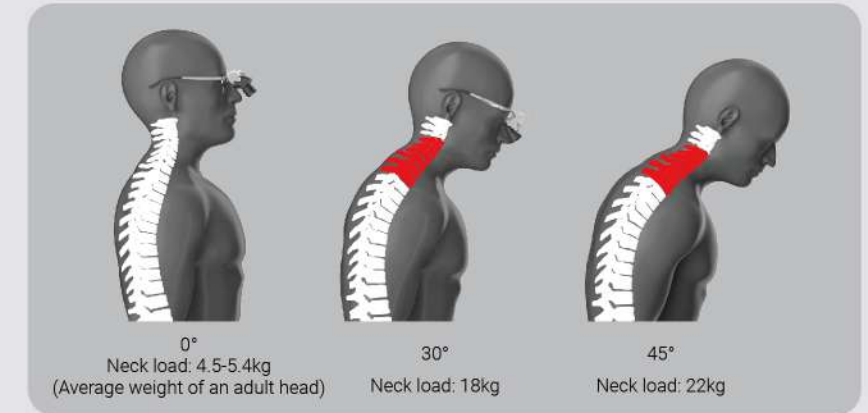

Magnification Ratio : 5X, Various 4.9X-5.6X  
 Working Distance : 450mm, Various 274mm-1088mm  
 Pupil Distance : Separately Adjustment, 52-76mm  
 Weight : 94.6g(with frame)  
 Field of View : 73mm , Various 40mm-179mm

## Ergonomic Loupes

No need to bow your head and bend over, relieve shoulder and neck fatigue and prolong dentist's career

According to research reports, 80% of dentists will have back and neck pain within 12 months. This is due to dentists working with unnatural head positions long time, which puts extreme pressure on the spine. Over time, this can cause irreparable damage to the health of dentists

## Refractives protect your neck

Benefited from the unique structure design, Brilliance 48° deflects the optical path of the loupes 48 degrees down, prevents the user from needing to hunching their neck and back forward

## Wide field of view and 4.9X-5.6X variable magnification

- Incredible full arch even with 5x magnification
- See every detail of the whole mouth

## Variable Magnification(with WD adjustment)

WD(mm)	Mag.	FoV(mm)
300	5.54	41
350	5.40	59
400	5.30	57
450	5.21	65
500	5.16	73
550	5.11	81

- Adviced Mag.: 5.11X-5.54X, corresponding 300-550mm WD & 41-81mm Fov

## Independently Adjustable Focus

- The left and right focal lengths are individually adjustable
- One pair of loupes can cover from 300mm to 500mm(WD)
- Especially suitable for dentists with different vision in left and right eyes

(When the vision difference between the left and right eyes is too large, it is recommended to use it after correcting the vision.)

### Flip-Up

The Flip-Up function can bring unobstructed vision and eye contact with your patients. Can be quickly and accurately reset after flipped-up without extra adjustment

### Reduce eye fatigue with asynchronous PD adjustment

PD can be adjusted independently, which helps to better guide the eyes and make the eye position more natural, and increases the comfort of the doctor and reduces eye fatigue caused by long-term surgery

Stressfree parallel viewing      Stressful inward viewing

### Adjustable pupil height

Make sure that there are no shadows above and below the field of view

### Clear and Sharp edge of the view

Say goodbye to vignetting and blurred edges

### Schott Glass and Multi-layer coating technology

Ensure greater penetration of visible light, anti-fog and protect the lens

### Aerospace-grade aluminium magnesium alloy

Exceptionally high strength and light

### Lenses can be easily replaced with myopia lenses

Easy replacement of lenses because of fishing line fixing method, smooth surface of the frame because of sandblasting

### Wireless Z Headlight easy Mount

Reserved space in the frame for Eigtheeth future wireless headlight

# Softouch

## Surgical Headlight

### Specifications

Lamp Diameter	18.5 mm	Battery Type	Li-Ion
Lamp Length	36.5 mm	Battery Capacity	3350 mAh, 3.7 V
Lamp weight	8 g	Charging Time	4 hours
Brightness	35000 lux	Battery Life	≥11 hours (with maximum brightness)
Color Temperature	5000 k	Adapter Input	100-240 V, 50/60 Hz, 0.2 A
CRI	90	Adapter Output	5 V, 1 A
Power	1 W	Power Box Weight	145 g

### Super Light

Made by aviation grade aluminum, only weighs 8g.

### Top Class Light Source

True color, and maximum brightness up to 35000 Lux.

### Ultra-long Battery Life

Can keep illuminating for 11 hours with maximum brightness.

### Safe to Use

High-level short-circuit and open-circuit protection. Power box clip to belt or pocket.

### Touch Control Design and Stepless Dimming

Touch bottom clip to collar or chest pocket, avoid shaking

Short touch to turn on/ off the light, long press to adjust steplessly the brightness.

Wired headlight reduces the weight on the bridge of the nose, providing dentists a durable and comfortable experience.

### CRI 90

Reveal true color, and improve safety as a result of increased visibility

### Color Temperature 5000K

Close to the color temperature of sunlight, can reduce eye fatigue in long surgery

### Edge to Edge Clarity, and Flicker Free

Fascinating optical design and high quality light-source make the light spot more uniform and soft. Flicker free avoids eye fatigue after long-time usage, and limits the damage to eyes.

## Wireless Headlight

Total Weight:	27 g
Battery Capacity:	550 mAh, 3.7V
Charging Time:	Single charging - 1.4 h; Dual charging - 2.6 h
Battery Type:	Li-ion
Adapter Input:	100-240 V 50/60 Hz, 0.2 A
Adapter Output:	5 V 1 A
Lamp weight(including adaptor):	12 g
Battery Module:	15 g

Compatible with Eighteeth Brilliance Series Loupes  
(Optional: customized connection with specified other Brand loupes.)

### Wireless

Enjoy a smooth work experience with cable free and stable lithium battery

### Brightness Memory

Automatically adjust to brightness when last powered off to reduce adjustment time and improve work efficiency

### Battery Status Indicator

Built-in battery status indicator flashes when the battery is low

### Super Light

Weigh just 27g (battery, headlight, filter included) and sit on the frame's upper edge for reducing nose bridge pressure

### Touch Control Design and Stepless Dimming

Sensitive touch technology can be used with gloves

### Time-saving

Magnetic connection for quick attachment

## Powerful battery

### Ensure Uninterrupted Surgical Illumination

#### - Long-lasting

Sustain maximum brightness for up to 2.5 hours per battery  
Package comes with two rechargeable batteries

#### - Fast

Amazing charging speed can largely save your time  
(Single charging for 1.4 hours and double batteries for 2.6 hours.)

#### - Convenient

Built-in battery charge indicator. Magnetic positioning for swift and easy charging

>80%

<60%

<40%

## 124mm

### Light Spot at 450mmWD

Providing clear and uniform illumination that effectively lights the entire arch with new optical design.

## Up to 35,000 LUX

Even edge-to-edge and same light intensity spot to ensure clarity

## CRI ≥ 90%

Restoring true colors with imported industry-leading medical lighting LEDs

- Real-time Torque

- One-button Calibration

- LED Contra Angle

### Safe & Stable

- Stable under high torque
- Ultra low speed available
- Surgical parameters can be preset to avoid misoperation.
- Smart error reminder, effectively guiding users to solve common problems in surgery.
- Visualization of surgical procedures, guide users to do surgery and improve the success rate.

### Strong Contra Angle

- Adjustable brightness helps surgery more clearly and precisely.
- Put the water inlet on the bottom.

\* Useful: avoid scratches when disassembling.  
\* Comfortable: there is no water pipe at the front of the contra angle, which takes up less space in the mouth and makes the patient more comfortable.

- Ergonomically designed and well-balanced
- Comfortable to hold without fatigue
- Detachable
- Durable

# MOTORSURG

## User-friendly

– LED color touch screen:  
Simple interface, intuitive,  
sensitive and easy to use.

– Data recording  
Data can be downloaded and  
analyzed by USB flash disk.

– 8 modes:  
Enter the surgery quickly and dentist can  
set parameters and customize the mode.

- ① Start/stop button
- ② Water volume control button
- ③ Program switch button
- ④ Forward/reverse switch button

## Multi-functional foot pedal

– Intelligent, user-friendly and aseptic operation  
– Compared with other brands, Eighteenth foot pedal can be  
started by stepping on only 2mm, which is more sensitive

## Quiet water pump

High performance: maximum water volume can reach 130ml/min  
Adjustable water volume.  
Simple connection

## Specifications

Speed(rpm)	200-40,000
Torque(N·cm)	5-80
Max. pump output(ml/min)	130
Program	8
Screen	LED color touch
One-button calibration	Yes
Light	White LED
Luminance(lux)	Over 32, 000
Length of motor cable(m)	2
Volume(cm)	24x26.5x15
Weight(kg)	3.65
Power supply	220-240V & 100-120V 50/60Hz

# E-FLOW

## Dental Anesthesia Device

Foot Pedal

Cartridge Container-M

Cartridge Container-UN

Handpiece

Main Unit

O-ring (5 pcs)

Handpiece Support

### Painless performance

#### Patented Hydraulic Drive Technology

\*High-precision sensor is used for more precise control, the injection pressure is just hydraulic pressure.

#### Smart Voice Reminder

Timely voice reminders under low anesthesia dose and high system pressure(in PDL mode), which is safer and more secure

#### Real-time Dynamic Pressure

The real-time injection pressure is displayed through the pressure value and pressure histogram, bringing a painless and safe treatment

#### 4.3" Touch Screen

Visualization of various functions, bringing sensory experience of visual interaction

#### High-precision Liquid Control

Not only can achieve precise drug delivery accuracy, but also can see the real-time remaining dose

Patent number 'ZL 2022 1 0413056.4'

Normal

Fast

PDL

Dosage

### 4 injection modes, multiple options for effective pain relief

- PDL Mode (periodontal ligament) Automatic injection can be selected in this mode

- Dosage Mode Free choice of injection dose, making the injection more stable and precise

### Handpiece

#### Autoclavable Container

Prevent cross-infection, safe and economical

#### Aspiration

Prevent swelling and pain caused by excessive liquid

#### Lighter and Smaller

Only weighs 40g, easier to operate

### Foot Pedal

#### Intelligent Foot Pedal Control

The injection flow rate can be switched by pressing the foot pedal to the "front section" or "back section" of the stroke

### Specifications

Model	:E-FLOW
Weight	: 1.8kg±10%
Handpiece weight	: 40g
Injection mode	: Normal, Fast, PDL,Dosage
Injection speed	: Slow (0.3ml/min) Medium (1.7ml/min) Fast (3.5ml/min)
Battery capacity	: 2600mAh

# MotorTurbo & E-Asp 1

Electric Motor and 1:5 handpiece

- Strong cutting power and stable torque output
- 4 memory program presets monitor speed and direction
- 4 transmission ratio presets offer the versatility to choose the right system to fit your treatment needs
- LCD touch screen and color display provide an intuitive user interface to reduce time spent making adjustments
- The standard four-hole connector of main unit suitable for all types of dental chairs
- Reliable security alarm system

-  Light intensity adjustment
-  Forward/ Reverse
-  Memory programmes switching (M1-M4)
-  Speed adjustment
-  Transmission ratio presets (1:5 1:1 16:1 20:1)

## Long-lasting brushless motor with a cooling system

- **More comfortable**  
A strong cooling system provides patients with a comfortable temperature in treatment
- **Longer lifetime**  
Brushless DC motor lifespan is approximately 6 times higher than the counter brushed DC motor
- **Quieter**  
Produce comparatively low operating noise as compared to other motors of the same ratings
- **More efficient**  
A very compact and small-sized brushless DC motor provides maximum torque continuously during rotation

#### LED fiber optics

- Shines light directly during the preparation, improving visibility tremendously
- Reduces visual fatigue and stress

#### Durable components

- Achieve long-lasting performance through repeated sterilization

#### Ergonomic design

- Enhances grip for better control

#### Multi-port spray

- Keeps the bur cool while whisking debris

#### Super strong push button chuck system

- Enhanced bur retention and long-lasting reliability
- Time saving and quick bur change

### Specifications

Electric Motor		High-speed Handpiece	
Model	MotorTurbo	Model	E-ASP1
Display	LCD colour display	Maximum allowable motor speed(rpm)	40000 rpm
Dimension main unit	130 x 129x 54 mm		
Weight	600 g	Ratio	1:5
Memory programmes	M1-M4	Motor connector	Comply with ISO 3964
Transmission ratio presets	1: 5 1: 1 16: 1 20: 1	Chuck type	Push-button chuck
Motor speed range	2000-40000 rpm	Bur dimension	Bur shank Ø 1.6 m
Motor torque	Max. 3.0 Ncm	Optical fiber	Light guide glass
Power cable length	1.5 m	Cleaning/Sterilisation	Steam autoclave up to 135°C
Motor tail wire length	2 m		

# E-Sanit

Steam Sterilizer

## Specifications

Model	Power rating	Sterilization room volume	Sterilization room size	Size	Weight
E-Sanit 18	AC220V/50Hz	18L	247*348 mm	620*421*500mm	46kg
E-Sanit 23	AC220V/50Hz	23L	247*448 mm	620*421*500mm	49kg

## Intelligent

### Patented anti-siphon technology

Prevent secondary pollution by blocking liquid backflow

Patent number "ZL 202310344487.4"

### 6.15" Large Screen

User-friendly LED touch panel showing real-time data accurate to 1 kPa

### Intelligent water detection

Automatic reminder for water shortage and substandard water quality with built-in sensitive sensor

### Smart electric door

With guaranteed dual-locking system

## Efficient

### Flexible customization of sterilization cycles

Tailor sterilization and drying time to achieve optimal results

### More convenient with large water tank

90% water consumption compared with other brands

E-Sanit

Other Brands

### 8 programs meet diverse user needs while ensuring the utmost effectiveness

(A complete sterilization in just 25 minutes in the rapid mode)

## Reliable

### Dual Overheat Protection

Automatically stop heating to prevent equipment from overheating with dual sensors detecting abnormal temperature changes

### Precise

Continuous temperature and pressure monitoring with imported NXP and high-precision PT1000 sensor

### Durable

A long-lasting Italian electromagnetic pump for reliable sterilization

### Safe

Real-time pressure monitoring. Automatically open to release pressure when limit is surpassed

### Replaceable

Effortlessly replaceable air filter that filters 99% of suspended particles

### Built-in printer (Optional)

Take up less desk space and ensure two methods for data storage
